

EKTA POPSICLE - ICE CANDY AUTOMATIC PACKAGING MACHINE

About Us

For more than 50 years A. K. Industries are the Pioneers of manufacturing Food-tech Machines and Distributors of world class Food Fragrance and Flavoring products and all the raw materials required for Ice Candy (pepcee) pouch. We manufacture three variants of...

***FULLY AUTOMATIC ICE-CANDY
(PEPCEE) POUCH PACKING
F.F.S.(FORM FILL SEAL) MACHINES.***

Our Manufacturing unit has state of art facilities using the latest machinery and technology to enhance the quality of our products.

We cater to the Customers of any type of business related to Ice candy Packaging & provide them with requisites & formulation required to manufacture Ice Candy pouches (Popsicle).

EKTA REGULAR

Ice Candy Popsicle (Pepcee) Pouch Packing Machine

Specifications

Dimensions (approx.)

530 x 580 x 1190 mm

Weight (approx.)

110 kg

Power

0.25 HP (Single Phase)

Pouch Length

40 mm to 170 mm

Speed

2400 to 3000 per hour

EKTA REGULAR

Ice Candy Popsicle (Pepcee) Pouch Packing Machine

Vertical section of sealing

- ✓ Stroke from one side

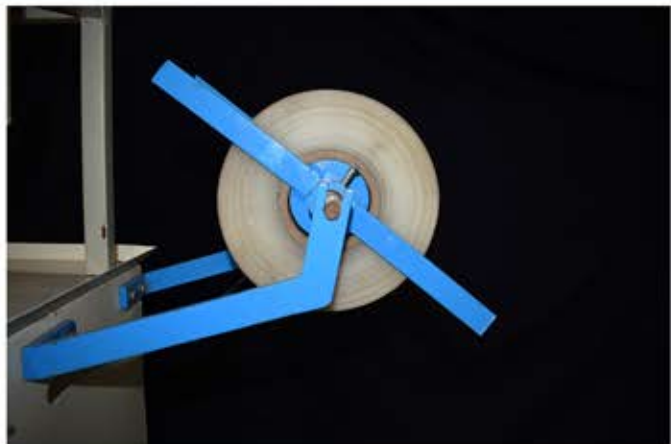

P.C.B. Board

- ✓ All functions inbuilt in PCB protected by fuse
- ✓ No complications & no maintenance is needed.

Film Roll Placement

- ✓ Outside the machine

EKTA ROYAL

Ice Candy Popsicle (Pepcee) Pouch Packing Machine

Specifications

Dimensions (approx.)

550 x 550 x 1240 mm

Weight (approx.)

145 kg

Power

0.25 HP (Single Phase)

Pouch Length

40 mm to 170 mm

Speed

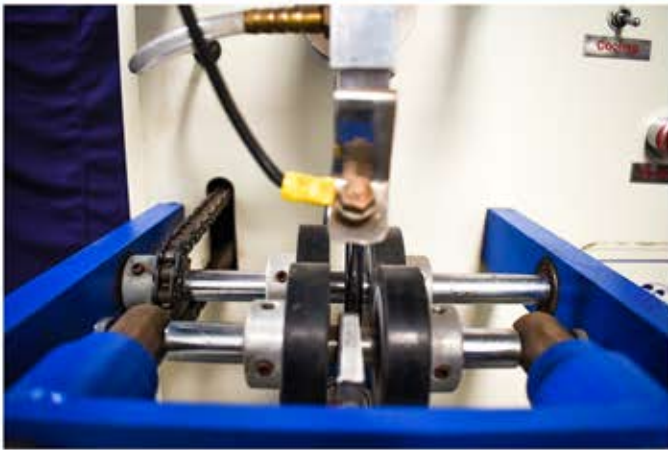

2400 to 3000 per hour

EKTA ROYAL

Ice Candy Popsicle (Pepcee) Pouch Packing Machine

Electric Wiring in the Panel

- ✓ High gauge polycab wire is used

Vertical section of sealing

- ✓ Stroke from both side

Water cooling system

- ✓ To maintain the temperature of heater coil

EKTA CLASSIC

Ice Candy Popsicle (Pepcee) Pouch Packing Machine

Specifications

Dimensions (approx.)

550 x 550 x 1320 mm

Weight (approx.)

165 kg

Power

0.25 HP (Single Phase)

Pouch Length

40 mm to 170 mm

Speed

2400 to 3000 per hour

EKTA CLASSIC

Ice Candy Popsicle (Pepcee) Pouch Packing Machine

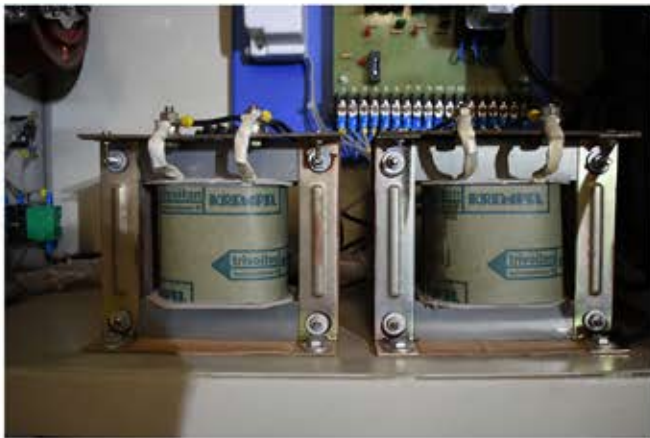

High Quality SS Contact Parts

- ✓ Material of Dye is made up of SS 304 quality

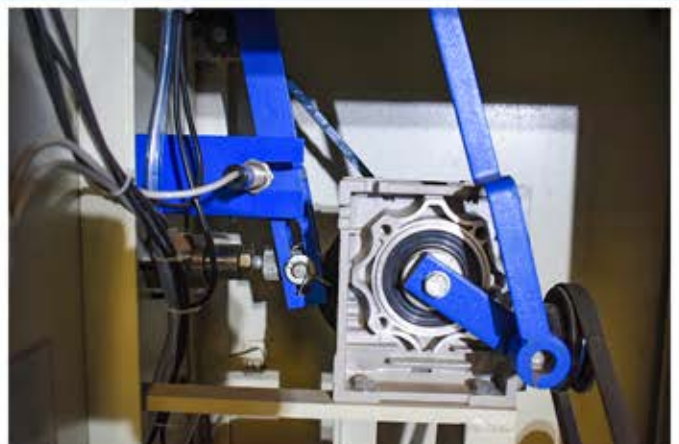

Life Time Warrantanty on Transformers

- ✓ The 5 inch Transformer is made of pure copper coil

Powerful Electric Motor

- ✓ 0.25 HP/ 1440 RPM
- ✓ Single Phase
- ✓ Godrej or similar brand

EKTA CLASSIC

Ice Candy Popsicle (Pepcee) Pouch Packing Machine

Enhancement Features

- All the outer parts of EKTA Machines like sheet, angle etc are used from Brand new virgin materials
- Heavy transformer is used due to which the machine can be used continuously for a longer time.
- Motor used in the machine is of branded high quality which reduces electricity consumption.
- Special P.C.B. card is used to reduce any up-coming risk to the electric parts of the machine
- Separate compartments are used for electric & electronic components
- A special M.C.B. is provided so that it trips in case of any problem.
- A special high quality gear box is provided which does not require oil change in future & has zero maintenance.
- Special stainless steel 304 quality pipe is used for making the dye so that the movement of plastic film is very smooth. Also it is very easy to replace the dye.
- The required necessary parts used in the machine are made from stainless steel.
- A separate compartment is given inside the body of the machine for keeping the roll of plastic film so that there is no damage to the film & it is protected from dust & germs.

Enhancement Features

- Special pipe made of steel with double ball bearing are provided in the component to ease the movement of plastic film.
- The setting of length of the tubing is very easy.
- A special counting meter is provided for counting of production output.
- Special tanks are provided with stand to be placed on the machine for continuous supply of liquid
- A special high quality pump unit is provided to supply this liquid into the supply tank
- A cooling fan is kept to control the temperature of electric & electronic parts

Infrastructure

PRODUCTS NURTURED BY TEAMWORK AT EKTA ...
TO THE BENEFIT OF CUSTOMERS ...

EKTA has an integrated team of engineers and technocrats who have been instrumental in indigenously developing, manufacturing and improvising FFS machinery that meets international quality and safety standards. The effort is to constantly seek Better products in Energy Efficiency and Cost Effectiveness

WITH YOU...

WHEREVER...

WHENEVER...

We are proud to say that EKTA machines does not need any After - Sales Support although every service person of EKTA has technical expertise
